LIGHTRON Compact UV-C Sanitizer disinfects Surfaces, Water & Air

Before the Covid-19 Pandemic broke down, the UV-C technology was used worldwide to disinfect water and food processing units. Now realizing the power of UV-C light in deactivating viruses, microbes & bacteria, we have used the same technology to disinfect the surfaces being used by people. The UV-C light with wavelength 254 nm emitted through the sanitizer can disinfect surfaces, water and air it is exposed to.

It is lightweight and portable which allows the user to easily sanitize larger surface areas used by multiple people.

The Sanitizer disinfects:

Cars & Buses

Office Desk & Conference Tables

Food Processing Units & Restaurants

Delivery & Food Packages

Ambulance & Vans

Hospital Beds & Dental Clinics

Classroom & School Buses

Grocery & Personal Belongings

Salient Features:

Models:	(i) CUVC 230V ac (ii) CUVC DC 12V dc / 24V dc (On Order) (iii) CUVC Battery Operated (in-built Rechargeable)
Disinfection Level:	Inactivates 99% of Viruses, Bacteria and Germs.
Complete Disinfection:	Chrome coated interior surface so that light reflects back on the object.
Safe Operation:	(i) For safety purpose, UV-C light will be ON only when Press-Button Switch is pressed, if switch is released, no light will be emitted. (ii) Please wear the UV protecting goggles provided with the Sanitizer.
Compact Size:	Portable size with handheld easy operation.
UV-C Lamp Specifications:	11W Osram / Philips Germicidal UV-C lamps of wavelength 254nm.
Power Supply:	Detachable 2 Pin molded cable.
Dimensions:	9.25"x4.75"x4.5" (23.4x120x120 cms)
Weight:	670 gms.

Convenient Operation:

1. Connect Power Supply through detachable 2 pin cable.
2. Pick the top handle firmly with palm grip.
3. Keep the opening face of sanitizer about 1 inch above the surface to be disinfected.
